

Yakutat Seafoods was established in 2005 as a subsidiary of Double E Foods, LLC with Yakutat based partner, Greg Indreland. E&E Foods has been selling products from Yakutat since 1996 and has extensive knowledge of the local fish and fisheries. Yakutat Seafoods is Marine Stewardship Council certified and shares our commitment to providing the finest Alaska seafood products while maintaining a sustainable fishery.

Strategically positioned between Sitka and Cordova, on Alaska's "lost coast", Yakutat Seafoods is the northern most processing plant in Southeast Alaska. Yakutat Seafoods is well known by the troller fleet, longliners and set net gillnetters. Our highly skilled fisherman deliver abundant quantities of

ocean troll caught Coho and King Salmon, net caught Sockeye, King and Coho Salmon and longline caught Halibut and Black Cod. Our net caught fish are bled on board and slush iced to ensure quality. This program is targeted to provide quality product to Salmon smokers and white table cloth food service distributors. All seafood products are promptly shipped to Seattle or directly to destinations in Europe or Asia.

Fresh wild Alaskan Salmon and Halibut is available from Yakutat Seafoods during harvest. Fresh-frozen wild Alaskan Salmon, Halibut and Black Cod are available from Yakutat Seafoods year-round in a variety of packaging and product forms.
